SUPERVISORS HOLD REGULAR MEETING

The Board of Supervisors met in regular session Monday, February 16th, there being present Wm. H. Brown presiding, Jas. T. Casey, John MacBain, Jos. M. Francis and D. E. Blackburn.

The minutes of the meetings held February 2d and 9th were read and approved.

Robert Gibson, an old resident of the Third township, asked for aid from the Indigent fund, representing that on account of old age and infirmities he was unable to earn a livelihood. He was granted $8 per month on motion of MacBain, seconded by Casey.

M. F. Brown, chief of the motorcycle squad, reported as follows:

Officer Logan worked 14 days, one arrest, one conviction; fine $50.

Officer Brown worked 14 days, one arrest, one conviction, three cases pending; fines $30.

Officer Vallejo worked 13 days, one arrest, one conviction; fines $10.

Officer Lowans worked 14 days, no arrests.

John Henry of the First township, aged 61 years, applied for aid from the Indigent fund, representing that he was in ill health and unable to earn a livelihood.

Casey stated that he had advised the applicant to go to the County Farm as he was without relatives and would be better cared for at that place. On his motion, seconded by Francis the application was denied.

Coroner and Public Administrator Plymire rendered a report of the disposition that had been made of the effects of certain deceased persons, which was accepted and filed

An itemized report was received from Leslie D. Whitney, secretary of the County Mosquito committee showing that up to February 1, $952.34 had been expended in the work of exterminating the pest.

The report was accepted and filed

A communication was received from the Los Angeles Chamber of commerce, notifying the board that a convention of supervisors will be held at that city on the 20th inst. for the purpose of promoting the sale of the bonds for the construction of the State highway.

The communication was accepted but no action was taken as San Mateo had contributed its share toward the purchase of the bonds and the highway was assured down the Peninsula.

A communication was received from the State Automobile Association, asking permission to place signs on the telephone poles on the State highway, making known the route from San Francisco to Los Angeles. Consent had already been received from the telephone company. On motion of MacBain, seconded by blackburn, the board's permission was granted.

County Clerk Nash was authorized, on motion of MacBain, seconded by Casey, to purchase from the State, for the use of his office, three books showing those corporations that had forfeited their charters during 1905, 1906, and 1907, the books to cost $6.

A number of erroneous assessments, submitted by the Tax Collector, were referred to the proper officers for correction.

A communication was received from the Lomita Park Improvement Club, notifying the board that a committee consisting of A. A. Anderson, F. L. Kielman and W. H Eddy had been appointed to audit the claims against the Lomita Park Lighting District and asking that such appointment be ratified.

The clerk was directed to notify the club that the board had no jurisdiction in the matter.

MacBain notified the board that he had delivered the typewriter of the Third district to the County Exposition Committee, whose offices are in the courthouse.

District Attorney Swart stated that the work of securing rights of way for the road between Belmont and the Spring Valley lake was still incomplete and the bids which had been received at the last meeting and laid over until this date, could not be opened. It was therefore decided to return the proposals to the bidders without opening them.

The District Attorney stated that in view of the difficulty the board was having in securing rights of way for the county roads he would commence suit against all of the nonconsenters as soon as he was in possession of the necessary data from the Surveyor's office. He advised the board to appoint viewers to take evidence and that a public hearing be had previous to commencing legal proceedings.

MacBain reported that he had learned that there was a family of eleven children and parents residing in Redwood City who were in the deepest distress, being without food. He was authorized, on motion of Casey, seconded by Francis, to investigate their condition and give them necessary supplies.

Surveyor Neuman presented four sets of plans and specifications for the road from San Bruno to South San Francisco, together with a blank form of bid for contractors, which were adopted on motion of Casey, seconded by MacBain, and the Clerk was directed to publish notice calling for bids for the work to be opened March 9th.

On motion of Casey, seconded by MacBain, the office of poundmaster of the First township was declared vacant and J. J. Sullivan was appointed to fill the vacancy.

Chairman Brown made an order that no more claims for automobile hire be presented to the board until the legality of such claims shall have been established through appeal to the courts.

On motion of Blackburn, seconded by MacBain, the supervisor of the Third district was authorized to dispose of the wreckage of the old bridge on the La Honda-San Gregorio road, between the Third and Fifth districts.

MacBain presented plans and specifications for a concrete culvert on the King's Mountain road near Tripp's store, which were accepted on his motion, seconded by Blackburn, and the clerk was directed to publish a notice calling for bids for building same, to be received March 9th.

Charles W. Fay of the Shore Line Investment Company presented a map and addressed the board in regard to changing the roadway at Granada in the Fourth district by moving it back from the beach, the company agreeing to provide the necessary right of way and to do the grading and macadamizing. Mr. Fay explained to the board that the change was desired to enable his company to make certain beach improvements of an ornamental nature such as are found at other water resorts. The people would be given ample access to the water front.

Francis was opposed to making any changes that would interfere with the people's rights to the use of the beach. It was decided, however, to postpone action and give Mr. Fay and Mr. Francis time to confer on the matter, taking into their council, the County Surveyor and the Investment Company's engineer.

The following citizens were selected by the several supervisors to serve as trial jurors during the year:

CITY OFFICIAL PAPER

OREGONIAN BOOSTS SHORTRIDGE.

The San Diego Union, one of the most influential Republican papers in Southern California, is using its power and influece in furthering the aspirations of Samuel M. Shortridge who is seeking the senatorship. The Union has the followni to say of Mr. Shortridge:

"Praise has followed Samuel M. Shortridge wherever he has gone. The famous San Francisco lawyer and candidate for the United States Senate is at present in San Diego, and will address the Republican rally tomorrow evennig. The following letter and editorial concerning him appeared in "The Spectator," a Portland, Oregon., magazine:

To the Editor of the Spectator: Noting the fact that my old (or rather young) friend, Samuel M. Shortridge, of San Francisco, is a candidate for the office of United States Senator for California, recalls an incident I am pleased to remember. In the early years of my work for equal suffrage, when Mr. Shortridge was a boy about sixteen years of age, I went to Salem to hold some equal suffrage meetings in the opera house. I was my own agent and manager in those days, and it was dfificult to get boys to distribute my 'dodgers,' because other boys would laugh at them. I mentioned my dilemma to Mrs. Clara Shortridge Foltz, at whose home I was a guest. Young Sam, who was present, arose to the situation and said: 'Fetch out your dodgers. I'll distribute them.' And he did, to such effect that the opera house was crowded during two or three consecutive lecture evenings. When I tendered my young friend the usual fee for his services, he said: 'Not a penny. I am proud to do such a work for the safety of my mother and my sisters.' I said then that Sam would make his mark some day. And he has.

The fine spirit that inspierd the boy to aid the distressed has never left the man. Samuel M. Shortridge is as ready today to help the needy as he was in the olden time when Mrs. Duniway found him her only champion in Salem.

"Since he left Oregon, Mr. Shortridge has become a very successful man. He is one of California's leading lawyers, an orator of wondrous force, a counsellor high in the ranks of the Republican party and a power in the social and business world of the State. Mr. Shortridge is an aspirant for the seat in the senate so long and creditably filled by Senator Perkins, whose failing health and accumulation of years have made retirement and rest necessary."

PUPILS WILL SEE PICTURES OF THE GREAT CANAL.

A very interesting picture lecture on the Panama canal and the Panama-Pacific Exposition will be given in the grammar school assembly hall for the high and grammar school students the last of the month. Through the liberal courtesy of the boards of trustees of the two schools, the entertainment will be free. The pupils of the 5th, 6th, 7th and 8th grades will be given extra credits in geography for attendance at this lecture.

Miss Walker, who saw these great pictures at the great auditorium at Shautauqua, New York, last summer, pronounces them excellent.

Mrs. Bliss Titus, who before her marriage was Miss Bliss Rockwell, a popular Redwood City girl and a graduate of Sequoia Union high school, was granted an interlocutory decree of divorce in San Jose Tuesday on her showing that her husband, Raymond Titus, a traveling salesman and member of a well known San Jose family, had been intimate with other women and had neglected her cruelly. The romance which ended on the rocks of the divorce court began in the couple's school days, when Titus was a star athlete and Miss Rockwell was a much-sought sorority girl.

John Curry of Auburn, son of Mr. and Mrs. J. F. Curry of this city, went to Sacramento last week to meet his old friend and professor, Father Ricard, "the padre of the rains," of Santa Clara University of which institution young Curry is a graduate.

Francis Hutchinson, formerly of this county, but now residing at Grass Valley, was in town Monday, calling on friends. He is a candidate for the position of County Horticultural Commissioner. He stands an excellent chance for the appointment, which will be made shortly by the board of supervisors.

The ball to be given in Foresters' hall this evening by Hose Company No. 3 of the Redwood City Fire Department promises to be a great social success. Many tickets were sold which insures a bumper attendance. The members of the hose company contribute their services to the department free and without reserve and therefore the people should appreciate this and attend the dance in large numbers.

"THE HOG THE MORTGAGE PAYER."

In these days of the high cost of food and especially of meat, when the packers are despairing of the meat supply and the price of flesh food is proceeding steadily upward, farmers would do well pay to heed to a section of Samuel W. Allerton's book on "Pratical Farming," entitled, "The Hog the Mortgage Payer."

r. Allerton says that this is what the hog is known as on Illinois farms and he believes that it is an eminently correct designation. He gives much practical advice regarding the successful raising of hogs and points out that the only serious obsticle to success is hog cholera.

But this may be avoided by proper feeding of the animal, his idea being that cholera is produced by overfeeding of corn. He therefore advises barley as a change of feed, and also suggests, in order to prevent the spread of the disease in case any amimal upon a farm should become infected with it, that hog coops be constructed and scattered over the farm so that infection may be confined to as few of the animals as possible and the loss minimized.

Mr, Allerton shows that by proper care hog raising is not expensive, and it is unneccessary to point out that in these times of high prices it brings large returns. He shows, in addition, that besides the direct value of hog breeding in the profit of the animals themselves, hogs greatly enrich the land upon which they run, and thus their presence on the farm makes for the betterment of all crops by supplying natural fertilizer.

Farmers should know all these things not only for their own benefit but for the sake of the entire consuming public of the nation. If it were realized how profitable hog cultivation really is, there would be many more hogs raised and the meat problem would be by no mean so acute.

Why not come to Einstein's for your shoes and have comfort.

A warrant was issued out of Justice Lampkin's court Thursday for the arrest of L. L. Foster of Oakland for speeding on the highway. He was arrested on Sunday by Traffic Officer Brown and agreed to appear in court on Thursday and when he failed to do so the warrant was issued.

Belmont can boast of one young lady who possesses a sound pair of lungs, plenty of nerve, and she knows how to handle a gun and a burglar, too. Last Saturday morning about 2 o'clock Miss Elna Hansen, hearing footsteps in the house, quickly seized a revolver and firing a few shots out of the window and at the same time sending out a few healthy notes, arousing the town in general. A careful search of the premises disclosed the fact that the man had been frightened away before he could obtain anything.

Mrs. Haydock entertained a number of friends at a gravel party at herhome in San Carlos last Wednesday afternoon. The house was most artistically decorated in potted plants, flowers and greenery. "Is The Gospel a Failure?"

Those who read the daily papers and note the trend of present social conditions everywhere; those who hear the insistent appeals for money for home and foreign missions are impelled to be interested in the subject of this lecture by an Oakland business man, Mr. W. L. Dimock, at Foresters' hall Sunday afternoon.

In ignorance of God's plan for the recovery of the world from sin and its consequences, and under the false idea that the church in its present condition is the sole agency for its accomplishment, the condition of the world today after the gospel has been preached for nearly nineteen centuries, is such as to awaken serious doubt in every thoughtful mind so misinformed. In fact, to every thoughtful observer one of two things seems apparent: either the church has made a great mistake in supposing that in the present age, her office has been to convert the world, or else God's plan has been a miserable failure.

To assist the honest inquirer to greater faith in God's word and in His plan for "blessing all the families of the earth," both those living of this age and those of all ages who have died; to assist all thinking Christians to a fuller appreciation of the efficency of the ransom sacrifice of Jesus, the Messiah, is the object of this lecture.

"Undenominational, all cordially invited, seats free and no collection." These expressions applicable to Mr. Dimock's lecture are the "trade mark" of all these lectures of the Laymen's Home Missionary Movement.

A good suggestion comes from E. Blockly, resident engineer of the highway commission, in regard to poison oak. This is the time of the year when the pest begins to show itself and when it is easy to exterminate If property owners along thee state highway from Redwood City to Menlo Park would institute a little campaign now there would be no trouble during the season. The university authorities are planning a thorough campaign to kill all the poison oak along fences, and especially along the highway. There example should be followed by all other property owners. The looks of the road will be greatly enhanced and the reputation of the county would be improved. Some people are afraid to travel the highway at this time of the year for fear of poisoning. Each individual should be responsible for beautifying his own frontage this year and the county will be prepared when the crowds come this way in 1915.

COUNCIL WILL NOT INSIST ON STREET WORK

Trustees Will Leave Questions of Local Improvement to Owners of Property

That there has been a misapprehension among the owners of property on Roosevelt avenue regarding the attitude of the trustees in the further improvement of that thoroughfare was made evident at the meeting of the city council Monday evening, when Mr. Elliott appeared, on behalf of himself and neighbors, to voice their protest against the incurring of further expense at this time. Mr. Elliott informed the council that owners of property on Roosevelt avenue had gained the impression that it was the intention of the council to order the resurfacing of that street with oiled macadam and the construction of concrete curbs and sidewalks during the coming summer, regardless of the wishes of those most interested. That such was not the intention of the council was made plainly evident in the discussion which followed this statement. While it was admitted that it was the opinion of the trustees that the suggested resurfacing of the street might be a desirable improvement, no intention of taking such action without the desire of those upon whom the cost would fall had been expressed. It was also positively stated by the trustees, all of whom were present at the meeting, that at no time had any intention been expressed of ordering the construction of curbs and sidewalks, for which at the present time there was no evident necessity. While expressing himself as generally in favor of street improvement and in full sympathy with the general plans of the council, Mr. Elliott called attention to the fact that much of the property on that street was still burdened with the cost of street improvements already made and that further expense at this time would prove an unjust burden. He also expressed considerable personal doubt as to the practicability of oiled macadam as a street improvement, questioning its ability to withstand heavy traffic. While he admitted that it presented a good surface for automobile traffic, he was emphatic in the declaration that in this section it would not long withstand the wear of heavily laden vehicles with the narrow tired wheels now in use. With the understanding that no further action would be taken until a desire for improvmeent had been manifested by the owners of the property on the street, the subject was dismissed.

The report of Marshal Coleman indicated that the month had been an unusually dull one in the way of collections, the total income of his office amounting to but $1284.00 divided among various sources as follows:

Water collections	$933.75
Miscellaneous licenses	59.00
Taxes	144.70
Street improvement dist. 8	47.75
Street improveent dist. 13	99.24

Treasurer Towne reported the balances in the several funds to be as follows: General fund, $3,505.89; water fund, $2231.03; library fund, $1579.09.

A request from the collectors of garbage that they be provided with some place for the disposal of the refuse gathered about the city brought the troublesome question of garbage disposal again to the fore and made it evident that in the near future some more modern method must be adapted by the city. After several plans had been discussed and discarded as impracticable, Chairman Merrill suggested that possibly some arrangement might be made with the Water Front Company for the temporary use of their property and with this understanding the question was referred to him with the hope of securing at least temporary relief.

The necessity of some assistance from the city in their effort to provide suitable gymnasium facilities for the youth of the city was again called to the attention of the council by a committee from the Redwood City Woman's Club. Before appearing before the council the committee had been in consultation with the trustees of the grammar school district who had agreed to assist in the work and had offered to contribute from their funds $150 toward defraying the expense of needed repairs and improvements to the building, with the understanding that while the controll of the property should remain with the school board, the direct management of the gymnasium should be given to the Woman's Club. It was explained that it was the desire of the committee that the building should be fitted for the use of both sexes, which would require some little alterations in the present arangements as well as necessary repairs. This would involve a considerable expenditure, a portion of which it was felt should come from the city treasury. With a view of securing a better understanding of the expense required, the committee was requested to secure an estimate of the cost of the proposed improvements, it being understood that such assistance would be given the project as the condition of the funds would warrant.

In order to allow for the preparation of the necessary legal formula, final action on the proposed affiliation of the city with the plan of a branch county library was continued until the next regular meeting.

An ordinance was given its introductory reading to provide for the rearrangement of the city election precincts so that while not increasing the number of voting places the precincts might correspond with the arrangement provided in the county ordinance. The new arrangement makes but little change from the former precincts.

An ordinance making provision for the municipal election on April 13th, at which two trustees, a clerk and treasurer are to be elected, was also introduced and given its first reading.

The notice of dismissal was filed in the county clerk's office in the morning. The suit was commenced through his attorney, John D. Willard, on May 9, 1912. The complaint filed at that time alleges that on May 10, 1911, plaintiff was employed in the engine room at the salt works at San Mateo when, through the carelessness and negligence of defendant the floor of the room became slippery from oil. The plaintiff sold to defendant in May, 1912, lots 49, 50 and 51, block 8, Wave Crest for $270. Hunter subsequently sold the property to a third party. your house, store, office or factory from the flames, you can still face the situation without worry if you are insured.

REDWOOD DEFEATS SAN MATEO AND EVENS THE SCORE.

Bob Fox celebrated his visit to his home by pitching the local team to victory Sunday in a victory between the Redwood City Native Sons and San Mateo Parlor on the Dingee grounds. The game was hotly contested from start to finish and kept the audience excited all the time.

Redwood made four runs in the second inning, three more in the third, and Fox got away with another in the seventh. San Mateo scored two runs in the fourth inning and one more in the ninth, leaving the final score 8 to 3.

Bob Fox was the bright scintillating star of the game, holding the visitors down to five hits and getting three of the runs for the home team.

John Russell, who started off on the mound for San Mateo, suffered a painful injury in the sixth inning. In sliding for the home plate, his leg came in contact with Catcher Henry Beeger's spikes. The injured player was taken to the office of Dr. J. L. Ross, who found it necessary to take two stitches to pull together the torn flesh.

The negro burglar, Thos. Merritt, was sentenced on Friday last by Judge Buck to serve one year in San Quentin, and on Saturday was taken to prison by Deputy Sheriff O. J. Parker.

Z. T. Thorning and wife departed Sunday for Mojave, where they will spend a week making improvements on a large tract of land owned by them in that part of the state.

COD LIVER OIL AND IRON
Two Most World-Famed Tonics Combined in Vinol.
Cod Liver oil and Iron have proved to be the two most successful tonics the world has ever known—iron for the blood and the medicinal curative elements of cod liver oil as a strength and tissue builder for body and nerves, and for the successful treatment of throat and lung troubles.
Two eminent French chemists discovered a method of separating the curative medicinal elements of the cods' livers from the oil or grease which is thrown away, but to these medicinal elements tonic iron is now added, thus combining in Vinol the two most world famed tonics.
As a body-builder and strength creator for weak, run-down people, for feeble old people, delicate children, to restore strength after sickness; and for chronic coughs, colds, bronchitis or pulmonary troubles we ask you to try Vinol with the understanding that your money will be returned if it does not help you.
P. S. For pimples and blotches try our Saxo Salve. We guarantee it.

THE EAST versus CALIFORNIA

Most cook books are written in the East by cooking experts, who know nothing of California conditions.

In California there is such a great variety of fresh vegetables, fruits, fish and game, climate, and often the fuel used, that cooking is far different from that in the East. These are good reasons why a cook book entirely written by California women will be more practicable and every-day-useful.

Two hundred women users of CALIFENE, the best shortening, will write the thousand dollar cook book.

The next time you go to the store, ask the grocer about CALIFENE and how to get the $1000 Cook Book. Also how to earn $5 by writing a recipe.

If, for any reason, you cannot secure the blanks, write to
